EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows because applicant did not include "device" after "second developing" in claim 1:

1. (Currently Amended) An image forming apparatus comprising:
an image bearing member;
first developing device, including a first developer carrying member,
for developing a first latent image formed on said image bearing member;
second developing device including a second developer carrying member,
for developing a second latent image formed on said image bearing member after said
first developing device has developed the first latent image; and
a rotary unit, for holding said first and said second developing device and for
moving said first and said second developing device to a position opposite said image
bearing member,
wherein, upon the reception of an image forming signal at said image forming
apparatus, said first and said second developer carrying members are rotated before
the first latent image on said image bearing member is developed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-7 is the inclusion of a rotary unit for moving the first and second developing device to a position opposite to the image bearing member and upon the reception of an image forming signal at the image forming apparatus, the first and second developer carrying members are rotated before the first latent image on the image bearing member is developed. This is found in all of claims 1-7, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
